

H Hunter^{*}

Contact Spray Control or Burndown of Weeds and Grasses

Active Ingredients:

Citronella	12.5%
Citric Acid	2.5%

Other Ingredients:

Soap, Water	85.0%
Total	100.0%

H Hunter herbicide is a soap product which penetrates the cell wall of plants to disrupt the cellular organization of physiological functions which are compartmentalized by membranes within the cell walls. Plant growth ceases when cellular contents are mixed which causes brown necrotic plant tissue.

- For use around Crops, Vegetables and Fruits
- For Ornamentals, Turf, and Trees in and around Farms, Forests, Nurseries and Greenhouses
- Does not Migrate through the Soil and is not Translocated in Plants
- Made with Organic Ingredients
- This 25(b) Exempt product is exempt from registration with the Federal Environmental Protection Agency under FIFRA regulations

Directions for Use: Dilution Rate : Add 1 part H Hunter to 7 parts water.

H Hunter Concentrate is diluted with water to the specified concentration for effective control of the undesirable vegetation. Apply using standard methods of liquid herbicide application. Do not apply this product through any type of irrigation system. Do not apply to weeds when wet from dew, rain or irrigation. Do not irrigate within 2 hours of application. Do not apply if rainfall is expected within 2 hours. Do not apply directly on to food crops.

Mixing: Fill sprayer tank with half the required amount of water, add the full amount of H Hunter concentrate to be used, then fill the sprayer tank with the remainder of the water required for the desired final concentration. Continuous mixing or agitation is not required.

Broadcast Application with Field Sprayer Boom Equipment: The amount of weed vegetation will determine the spray volume required for complete coverage of undesired plants (weeds). For weeds over 1" high do not use less than 30 gallons/acre. Large weeds of 12-18" high may require 80 to 125 gallons/acre or more for control.

Directed Spray Equipment: Use a shielded sprayer to prevent spray contact on desired plants. Avoid spray contact of green plant stems or green bark of young trees and shrubs.

Caution: Keep out of reach of children and animals. Causes substantial, but temporary eye irritation. Do not get in eyes or on clothing. Wear goggles. Harmful if inhaled. Avoid breathing spray mist. Causes moderate skin irritation. Avoid contact with skin or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.
